SELECTED WORK EXPERIENCE

Andy Stewart Design LLC

DESIGNER, ILLUSTRATOR, EVERYTHING-ER / PRESENT

I collaborate with organizations, agencies, and individuals from concept to execution, translating ideas, values, and dreams into clear strategies and effective visuals. On the side, I teach silkscreen and letterpress.

Intentional Futures

DESIGNER / 2014-2016

Intentional Futures is a strategy & design studio that's exploring big questions about what the future could hold. For clients like the Bill and Melinda Gates Foundation and Microsoft, I worked on identity and event design, data visualization, web design, and more.

Tether

DESIGNER / 2013-2014

Tether is a group of friends who share a passion for well-told tales, whether through packaging, brand identities, ad campaigns or web experiences. For clients including Tropicana, Julep, and Luvo, my work at Tether touched on all these types of design and more.

Son&Sons

DESIGN FELLOW / 2013

Son&Sons is a global brand design firm based in Atlanta, GA, and a sworn enemy of mediocrity. I worked with the team to produce a brand strategy and comprehensive visual identity for the Buckminster Fuller Institute that spanned digital and physical media.
